PART II: READING

(30 MARKS)

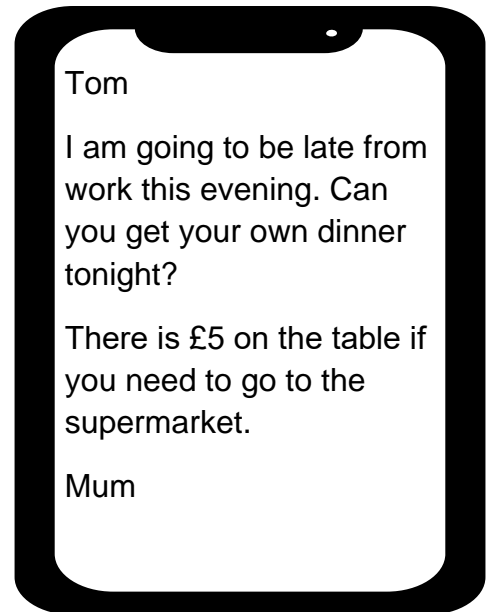

TASK 4

(5x1=5 marks)

For each question choose the correct answer.

1.

- A.** Tom's mum will be cooking dinner tonight later than usual.
- B.** Tom's mum can't go to the supermarket on her way back from work.
- C.** Tom's mum will not be home at her normal time today.

2.

- A.** Students should pay for their accommodation by the 25th.
- B.** It is necessary to make all accommodation payments by the end of the month.
- C.** Students have the chance to get 5% off their accommodation if they pay for the year.

3.

- A. Peter has spent part of the day watching wild kangaroos in the countryside.
- B. Peter's flight to Australia was very long so he hasn't done much today.
- C. Peter is looking forward to seeing more animals during his trip to Australia.

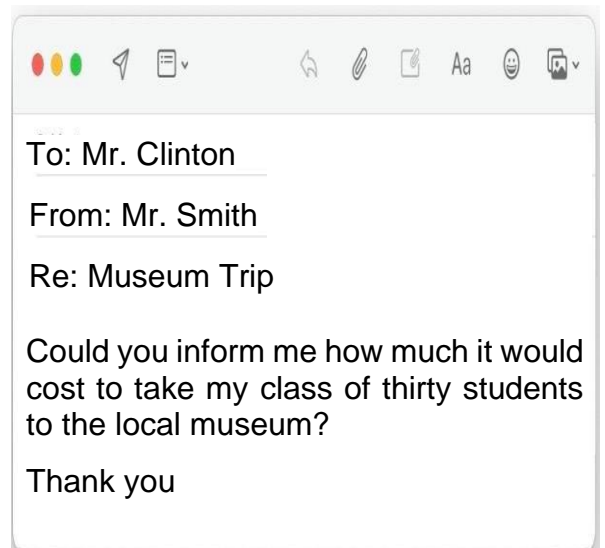

Ali

Arrived in Australia yesterday. The flight took absolutely ages, but we've been out today and visited an Australian wildlife park. Can't wait to see the kangaroos in the wild. I'll send you some photos.

Peter

4.

- A. Mr. Smith works for the local museum.
- B. Mr. Clinton wants to take a school class to the museum.
- C. Mr. Smith is organising a school trip to a museum.

5.

- A. Children are allowed in the restaurant only if they are with someone aged 18 or over.
- B. Children are allowed into the restaurant unaccompanied before 9 pm.
- C. Young adults may enter the restaurant without the permission of an adult at all times.

Children under the age of 16 must not enter the restaurant unless accompanied by an adult.

Young adults over 16 are allowed to stay in the restaurant unaccompanied until 9 pm.

TASK 5

(4x1=4 marks)

For each question, choose the correct answer.

The young people below want to attend one of a series of talks during Science Week. On the opposite page there are descriptions of five different talks. Decide which talk would be the most suitable for the people below.

1. **Maria** loves science and history. She believes that they are the most interesting subjects. However, she would like to attend a talk that is fun and not that complicated.

2. **Costas** likes spending time on his computer. He also likes learning about technologies that are both useful and interesting and will help people in the future to live healthier lives.

3. **Helen and Angela** like being outdoors a lot and are interested in the environment. They also love learning about new technologies and seeing how they compare to technologies of the past.

4. **Christina** would like to take her 9-year-old sister with her and do something fun and creative. She thinks that her sister is too young to attend an adult talk. However, she would like to attend an event during Science Week.

A. Science in our world

In this family-friendly talk for all ages, learn how we use science and technology in our everyday lives. The talk will be followed by a 'make and take' session, where children will learn the science of flight, then make kites to take home with them. Booking in advance is essential for this popular, free event.

B. Medicine and the modern world

We think that printers are just for printing out information. But they are already used to print body parts and may one day print human hearts! In addition, pills will become a thing of the past soon, as we become better at finding ways to help the body recover from illness by itself. Find out how modern medicine is changing.

C. The natural environment and us

Rainforests are fast disappearing, but do we ever think about what this means to us? When we destroy plants and trees, it causes climate change. In addition, we lose plants that could be used for medicine and to cure illnesses. In this talk today, you will learn how you can help before it is too late for future generations!

D. Comedy and Science

Come along and enjoy a laughter-filled talk on scientific topics. Learn how scientists first discovered medicines and technologies in very unusual ways. You can then enter a fun quiz at the end of the talk to win a chemistry set or a family day out at the Science Museum, with free entry to all displays and talks!

E. Understanding the weather

Developments in computer programmes have made weather forecasts more accurate but there is still a lot of work to be done. We will bring you the latest in technologies for creating weather forecasts and also decide how these have developed from past technologies. After the talk, historical weather equipment will be on display. You will also be able to watch old recordings from TV and news programmes.

TASK 6

(5x1= 5 marks)

For each question, choose the correct answer.

Why Finland's schools are so successful

For many years the school system in Finland has been very successful. In the PISA survey, which compares reading, maths and science knowledge of 15-year-old students around the world, Finland is not only the top European country but also competes with Asian giants like Shanghai, Singapore and South Korea. But what makes the educational system in this small country so strikingly different from others in the western world?

First of all, the Finnish government makes it possible for all children to attend preschool, which comes after kindergarten. Compulsory education begins at 7. Teachers try everything to succeed with their pupils. They work with their pupils in school as much as possible. They assign little homework and they work on the curriculum and new projects in their free time. They teach in teams if it helps them to reach their goals. Most of the pupils get additional help in their elementary school years, either by the teachers themselves or through specially trained educators. That is why dropout rates are low compared to other countries.

Schools in Finland are small, at least for international standards. More than in any other country teachers are ready to prepare children for life. In contrast to other nations teaching in Finland is a highly admired profession. Finland selects its teachers very carefully. Only talented students go on to a university and receive a master's degree in education. Finland only takes the best to educate its youth.

All Finnish children, whether they come from the city or a rural town, whether from a rich or poor family have the same opportunities in education. Education experts claim that there is very little difference between very good and the worst students. Two thirds of Finnish pupils who finish compulsory education move on to higher education, the highest rate in the European Union.

A part of Finland's success is also owed to the fact that its society is homogenous. There are not so many differences between the wealthy and poor as in America or other western European countries. This is reflected in the classroom too. Teachers always try to show pupils how to behave socially and care for others. They teach them that taking responsibility is very important for their future careers.

1. **In the Pisa survey Finland _____ .**
 - A. is the least successful European country
 - B. is among the top countries in Europe and competes with top Asian countries
 - C. ranks low in comparison to other western countries
 - D. excels only in maths and science

2. **Why are dropout rates in Finland lower compared to other countries?**
 - A. Teachers assign a lot of homework
 - B. All students get additional help
 - C. Some students get help from both the teachers and trained educators
 - D. Teachers create new activities and work on the syllabus

3. **Which of the following best summarises Finland's approach to teaching?**
 - A. Finland values the teaching profession and selects only the most talented teachers
 - B. Finland prioritises quantity over quality in its selection of teachers
 - C. Finland's education system does not place importance on the quality of teachers
 - D. Finland's teachers are not required to have a master's degree in education

4. **What is highlighted as a key aspect of the Finnish education system in the passage?**
 - A. The high degree of educational opportunity for all children
 - B. The significant difference between the best and the worst students
 - C. The low rate of pupils continuing to higher education
 - D. The focus on urban over rural education

5. **Which factor is mentioned in the LAST paragraph as contributing to Finland's success?**
 - A. The high level of diversity in Finnish society
 - B. The large gap between the wealthy and poor in Finland
 - C. The competitive nature of Finnish schools
 - D. The emphasis on social behaviour and responsibility in Finnish schools

TASK 7

(5x1= 5 marks)

Five sentences have been removed from the text below. For each question, choose the correct answer. There is ONE extra sentence which you do not need to use.

Artificial Intelligence: The Dawn of a New Era?

Elon Musk, a tech entrepreneur, says artificial intelligence (AI) is a bigger threat to humanity than nuclear weapons. On the other hand, Mark Zuckerberg, the CEO of Facebook, thinks differently. **(1)** _____ .

Regardless of whether you agree with Musk's or Zuckerberg's argument, what is clear is that AI is reshaping the world we live in. **(2)** _____ . And although we may not be aware of it, we already use it in our Facebook news feeds when we talk to Siri on our iPhones or ask our Alexa-enabled speakers to play a track.

'Artificial Intelligence is not magic,' write LeCun, head of Facebook's AI research, and Candela, Facebook's Director of Applied Machine Learning, in their blog. 'But we've already seen how it can make scientific discoveries that seem like magic and help us to everyday things like identify objects in photos, recognise speech or drive a car. **(3)** _____ .

How does it do this? Many intelligent machines and systems use algorithmic techniques loosely based on the human brain. **(4)** _____ .

'All of this happens at blinding speed through a set of coded programs designed to run neural networks with millions of units and billions of connections,' write LeCun and Candela. 'Intelligence emerges out of the interaction between this large number of simple elements.'

If, for example, you want to teach a computer to tell the difference between a car and a dog, you do not program it to carry out the task. **(5)** _____ .

Adapted from: <https://www.eslecollege.com/artificial-intelligence/>

- A. It may as well translate an online post into dozens of languages.
- B. You train it to recognise objects in images so that it learns for itself.
- C. For example, it is leading to improvements in medicine and self-driving cars.
- D. People learn and perform tasks easier.
- E. He believes AI will save lives.
- F. These neural networks can learn to recognize patterns, translate languages, and even come up with ideas.

TASK 8

(5x1= 5 marks)

For each question choose the correct answer to fill the gaps.

Santorini: A memorable experience

If you're dreaming **(1)**_____ a memorable holiday destination, consider visiting a Greek island. With its stunning landscapes, rich history, and warm hospitality, Greece offers an **(2)**_____ experience for travellers. One popular island destination is Santorini.

Santorini is famous for its picturesque villages, breathtaking sunsets, and crystal-clear waters. If you're exploring the narrow streets of Oia or lounging on the black sand beaches of Perissa, there's **(3)**_____ for everyone to enjoy.

During your stay, be sure to indulge in the local cuisine. Taste traditional dishes like gyros, souvlaki, and moussaka at cozy tavernas **(4)**_____ the sea. Don't forget to accompany your meal with a glass of ouzo, a popular Greek liqueur.

If you're seeking adventure, Santorini offers a variety of activities to enjoy. From hiking along scenic trails to sailing around the island's volcanic caldera, there's no shortage of excitement. For history enthusiasts, a visit to the ancient city of Akrotiri is a must. Explore the well-preserved ruins of this Minoan settlement and learn about its **(5)**_____ history.

With its stunning beauty and diverse attractions, Santorini is the perfect destination for a memorable Greek island holiday.

| 1 | A. of | B. for | C. at | D. to |
| 2 | A. unexceptional | B. unimpressive | C. unremarkable | D. unforgettable |
| 3 | A. nothing | B. something | C. anything | D. everything |
| 4 | A. overlook | B. to overlook | C. overlooked | D. overlooking |
| 5 | A. fascinate | B. fascinated | C. fascinating | D. fascination |

TASK 9

(6x1= 6 marks)

For each question write the correct answer. Write ONE word for each gap.

Justin Bieber

Justin Bieber is a Canadian pop star and actor. He was born **(1)** _____ the 1st of March 1994. He wanted to **(2)** _____ a musician for as long as he could remember. When he was a child, he taught himself to play the piano, guitar, trumpet and drums. In 2007, his mother posted many videos of him singing covers of blues and soul songs. A record company executive saw one and in 2008 Bieber signed for Island Records.

Bieber's first single, "One Time", reached number 17 on America's Billboard Hot 100. His first album, "My World", was released in November 2009. It went platinum in the U.S. He went on tour to promote the album. The 3D movie of the tour nearly broke the sales record for the **(3)** _____ successful opening weekend for a concert movie. Bieber also appeared on many prime time TV shows in the US.

Bieber has become an international star in a **(4)** _____ short period of time. In 2010 he won the Artist of the Year award at the American Music Awards. He was also nominated for Best New Artist at the Grammy's. Bieber appeared in several TV roles, including in the hit TV series CSI. He has also sung on records for charity to help victims of the Haiti and Japan earthquakes.

Justin Bieber is a modern-day star. He is highly popular on Internet sites. He has over six million followers on Twitter, which he uses to chat with his fans. Romantically, Bieber has **(5)** _____ linked to reality TV star Kim Kardashian and Selena Gomez, although Bieber says this was just gossip. He is also often the target of criticism and pranks **(6)** _____ the Internet.
