(5x2=10 marks)

You will hear five people talking about teaching. For each of Speakers 1-5, choose from the list, A-F, which opinion each speaker expresses. Write the letter in the box. Use each letter only once. There is one extra letter which you do not need to use. You will hear the recordings twice.

Speaker 1

A. In my opinion, behind every dark cloud there is a ray of sunshine.

Speaker 2

B. I've given up teaching because of the overwhelming challenges I came across.

Speaker 3

C. In spite of feeling frustrated, I will persevere.

Speaker 4

D. I believe in embracing differences and providing opportunities to all.

Speaker 5

E. Teaching has failed to meet my expectations.

F. My role is to spark the light of learning and shape the minds of tomorrow.

TASK 3

(10x1=10marks)

Listen to the following talk about the *Solar Decathlon* and complete the details below. Write one or two words or a number for each answer. You will hear the recording twice.

The Solar Decathlon

General Information

Participants: 20 university student teams

Competition criteria: to design, construct, and operate the most attractive and energy- (1) _____ solar powered house.

Contests: Students test houses in (2) _____ contests.

Contest categories include architecture and (3) _____ as well as energy performance.

Prior to competition: 2 years spent in preparation; 800-square-foot prototypes transported to competition site and reassembled.

Competition site: Open forum and exhibition; public tours organised.

Design features: Houses designed to utilize heat and light from sun, cooling breezes and shading; ingenious use of (4) _____ materials.

Lesson learned: Energy – a precious (5) _____.

Contest examples:

- *Energy performance test:* Tests energy use of basic (6) _____ in the house e.g., washing machine, cooker, dishwasher, etc.
- *Comfort Test:* Tests whether houses maintain a steady, (7) _____, comfortable temperature of 22-24 degrees Celsius and relative humidity ranges between 40-55%
- *Getting Around Test:* Tests whether electricity generated by houses can (8) _____ electric car – car which completes the greatest number of miles is winner.

Aim of competition:

- To encourage students to pursue a career in science and engineering.
- To raise awareness about this type of (9) _____ energy.
- To help people think in new ways about energy and how it impacts daily life.
- To provide students with the opportunity to (10) _____ ways to conserve energy and show the world how it can be applied.
