Fast Facts:

Name: Angelina Jolie
Born in: Los Angeles, USA
Birthday: 4 June 1975
Job: film maker and actress
Mother: Marcheline Bertrand
Father: Jon Voight
Brother: James Haven

Past and Present

Angelina Jolie was born in Los Angeles, California on June 4, 1975. A year after her birth, her parents got divorced so she grew up with her mother. As a child, she had a hard time at school since other children made fun of her because she was very thin, wore glasses and braces. She always felt lonely and even suffered from depression.

Today, as a successful actress and one of the most highly-paid actresses in Hollywood, Angelina is still sensitive to human suffering. She travels to African countries to help people in need. She is involved with child protection and their human rights. She also wants to make sure that all children have a roof over their head as well as food and education.

Angelina Jolie is not only an excellent actress but also a role model we should all follow.

One night in December 2011, a bear came into the city of Vancouver in Canada. It walked through the city streets past houses, shops and offices. Then it found some food in bins outside a restaurant and started eating. In the morning, someone saw the bear and called the police. The police came with a vet from the city zoo. They put the bear in a lorry and took it to the mountains outside the city. Luckily, the bear was safe!

In Cape Town, in South Africa, baboons come into the city when they are hungry. They go into gardens and eat fruit from trees. They also get into houses and take food from cupboards and fridges! Human food is very bad for the baboons' teeth because it has a lot of sugar. Baboons are strong animals and they can scare people. But the city can be dangerous for baboons, too. Sometimes, cars and buses kill baboons in accidents.
