Penguins

Penguins are among the most popular of all birds. They only live in and around the South Pole and the continent of Antarctica. There are many different kinds of penguins. The largest penguin

is called the Emperor Penguin, and the smallest kind of penguin is the Little Blue Penguin. There are 17 different kinds of penguins and none of them can fly.

Penguins can survive in some of the Earth's coldest and windiest conditions. They are great swimmers and have thick layers of fat to protect them from the bitter cold. Even in their freezing cold habitats, penguins have to watch out for killer whales and seals.

(5x2=10 MARKS)**

Dear Tran,

How are you? I feel terrible! I am writing to tell you about my difficult day at school today.

Like every day, I didn't want to go to school. I knew it would be a bad day today, just like every other day.

When I arrived at the bus stop some pupils from our school were waiting to bully me. "Hey, you," called one of them. "Where did you get that stupid bag?"

Then one of them grabbed the bag you gave me for my birthday and threw it into the rubbish bin. I was very angry but too afraid to tell them anything.

When I finally made it to class and was about to sit down at our desk, I saw one of the girls pointing at me and whispering something to her friend. Her friend laughed and said something to the girl next to her. She laughed too and ran to tell another girl. I felt my face getting red!

I was so upset the whole day that I just wanted to disappear. I hate people bullying me!

What do you think I must do? I need your help!

Write soon!
