**From: Samantha**

Hi my friend,

How are you? I'm not doing really well and I wanted to ask your advice about something. As you know, the university is closed now and I have a lot of free time having nothing to do! I'm so bored and I wanted to ask your advice about what I could do to kill my time!

How do you think I should spend my free time? Shall I take up a new hobby? Shall I start travelling around the world? I have no idea what to do and this makes me so disappointed! Do you think I should try to find a summer job so that I can earn some money too?

Write back to tell me all about you, too  
Looking forward to hearing from you soon!

Best wishes,

Samantha

We've got televisions,

freezers and stereos and

machines that wash

and dry.

We've got everything

money can buy.

So, can we say that..

Life is easier than before?

A hundred years ago, **(1) appliances / equipment** at the house were not very common. In order for a woman to clean the floor of the house, she would **(2) dirt / sweep** it with a broom. However, nowadays, people use the **(3) washing machine / vacuum cleaner** to suck up all the dust in a moment. A very common appliance for the kitchen today, is the **(4) dishwasher / fridge-freezer** that we use to wash the dishes and glasses. And of course, in order to wash the **(5) clothes / dust** we use the washing machine instead of washing them by hand. Therefore, life nowadays is much easier than before! ...

... However, the question still remains: "Do people really feel happier?"

**GOOD LUCK!!** 😊 😊 😊
