Florida, USA, opened to the public and attracted 25,000 people on the first day.

One of the most visited areas in Disneyland Paris is Adventureland. Here you can meet pirates and walk through mysterious jungles. Another area which is famous for its scary rides is Discoveryland. Space Mountain is one of the most popular rides here, but you cannot get on it unless you are taller than 1.32m. But the place which children of all ages love is Fantasyland. The Sleeping Beauty Castle is at the entrance of Fantasyland. Inside the castle, there is a dragon which lifts its neck and puffs smoke when it is not sleeping.

There are seven hotels near Disneyland Paris. If you choose to stay at one of them, you can use a free bus to get to the park. The Santa Fe hotel is the cheapest choice and it is only a 15-minute walk from the park. If you travel in the summer, you can book a room at the Sequoia Lodge Hotel, the only one with a huge swimming pool.

Disneyland Paris is open every day of the year. Weekends and holidays, however, may not be the best times to visit the park as ticket prices are more expensive and also the park is busier then.

## **Passage 2**

### **Energy around us.....**

### **Beijing bicycles**

Hello! My name is Jiang An Li. I live with my mum and dad in Beijing, which is the capital of China. Because the streets are polluted from the cars' exhaust fumes, mum says that everyone should go on bicycles because then the air would be cleaner. When I don't have school or things to do around the house, I go cycling with my sister and friends.

### **Boiled alive!**

Hello! My name is Brynja. I live in the capital of Iceland. In winter we have only four hours of daylight. When my cousin from Spain visited us last year he said it felt strange to have the lights on during the day. The water for the shower in our house comes from underground, where it gets heated by lava. The pipes sometimes freeze because of the low temperatures and we have no hot or cold water. In winter, the water is really hot, so we can go swimming. We all love to spend our free time in this way. My mum asked me if I wanted to go swimming this afternoon at an outdoor pool. Of course, I agreed. As for public transport here, our new buses run on electricity instead of petrol and they don't produce exhaust fumes.

### **An Indian summer**

Hello, my name is Lalita. I live in India. Our farm is miles away from everywhere and we use a horse-driven cart to get around because we don't have a car. Travelling around is a real problem. Old buses and cars' pollution is really smelly. Although we are extremely poor, we are happy. Mum cooks in the small room using a wood fire. When it gets dark we light our kerosene lamp, which lights our room with a bright flame. Mum and I sing and dad tells stories.
