Πριν από κάθε απάντηση να σημειώνετε τα στοιχεία της ερώτησης.

PART II: WRITING SKILLS

(30 MARKS)

You have recently started a summer job. Write an email to your English-speaking friend to tell him/her about it.

In your email you should:

- say what your job is and describe your daily tasks;
- mention two skills you have learnt;
- say whether you would choose to do a similar job in the future and why.

Your email should be about 150 words. Do not write your name anywhere in the email.

PART III: READING SKILLS

(30 MARKS)

Read the passage below and answer ALL the questions that follow.

Robotics and Entertainment

Robots have become a popular attraction in theme parks all around the world. They are used to give visitors an interactive and exciting experience that combines technology with entertainment in new and imaginative ways. As this technology continues to develop, more and more parks are choosing to invest in robotic systems to stay ahead of the competition and offer their guests something truly **memorable**.

Examples of Robotic Attractions

Robotic attractions are increasingly becoming a common feature of modern theme parks, adding an extra layer of interactive entertainment. The Twilight Zone Tower of Terror is one impressive example, using robotic special effects for the ride experience. The Amazing Adventures of Spiderman takes robotic technology to a new level, simulating the entire ride from start to finish.

There is also the famous Pirates of the Caribbean ride, which features lifelike animatronic pirates that continue to fascinate visitors of all ages. Animatronic figures are robots which can move in very realistic ways by combining technologies such as sensors, cameras and motors.

Another well-known example is the Robot Restaurant in Tokyo, which offers guests a one-of-a-kind experience featuring performances only by robots. These robots are all designed to fit their environment, with unique and complex programming. Robotic technology also enables attractions to become more **flexible**, allowing content to be updated and adjusted depending on the needs of the park.

Advantages of Robots

Robots in theme parks help to create a magical environment that is both educational and enjoyable. Visitors can explore technology through creative, hands-on experiences that inspire imagination and curiosity. Robotics-enhanced rides allow guests to interact with robots in a variety of ways, learning how this technology works in a fun and entertaining setting. This makes robotic technology particularly valuable for younger visitors, who are often the most enthusiastic about discovering new things.

Robotic systems also give theme park operators greater control over their attractions. They can easily adjust different features to improve how rides work and use real-time data to make proper decisions about the park. At the same time, robotic systems increase safety by regularly checking that everything is working properly and helping to prevent problems that might occur without warning. This means that operators can **concentrate** on delivering the best possible experience for their guests.

Another important advantage is that robots can take over simple, repetitive tasks such as placing goods on shelves or operating rides. Instead of relying on human workers for these jobs, robots can offer a faster and more efficient service. In addition, robotic systems can take over personal tasks such as serving food and drinks, taking photos, or even recognising individual guests and responding to their specific needs.

Challenges of Robots

Although robots in theme parks offer many benefits, there are also several challenges that must be addressed. Firstly, the cost of developing and maintaining these systems can be very high. Secondly, safety must always remain a top priority, both for the robots and for the visiting public. Issues such as cybersecurity and user privacy must be taken seriously to **ensure** the secure operation of these advanced systems.

Another key factor is how well the robots perform in a specific environment. For example, when a robotic assistant welcomes visitors at the entrance, it should be able to respond to commands, recognise different languages, and understand what guests are asking for. Robots must also be flexible enough to adjust their behaviour to different situations in order to complete tasks successfully. If they are unable to do this, the experience for visitors may become frustrating rather than enjoyable.

Overall, robotic technology has the **potential** to transform the theme park experience in exciting ways. However, the challenges involved must not be ignored if these systems are to operate both safely and effectively for years to come.

A. Choose the best answer a, b or c according to the passage.

(5x2=10 marks)

1. Investing in robotics helps theme parks ____.

- a. improve working conditions
- b. expand facilities
- c. remain competitive

2. Animatronic figures appear realistic thanks to ____.

- a. human features
- b. regular updates
- c. combined systems

3. Robotics-enhanced rides enable visitors to ____.

- a. operate attractions
- b. experience technology
- c. test equipment

4. Robotic systems help avoid ____ issues.

- a. unexpected
- b. personal
- c. data

5. One advantage of robots is that they can ____.

- a. handle routine work
- b. respond to the workers' needs
- c. rely on human workers

B. Write whether the following sentences are True (T) or False (F).

(5x2=10 marks)

1. The Robot Restaurant uses both human performers and robots.
2. Robotics can help visitors learn in a more practical way.
3. Real-time data allows theme park operators to make right choices.
4. Safety challenges mainly concern visitors.
5. A robotic assistant needs to communicate in one language.

C. Answer the following questions according to the passage. (5 marks)

1. Give two (2) examples of tasks that robots can perform instead of human workers in theme parks. (2 marks)
2. List three (3) challenges when using robotic systems in theme parks. (3 marks)

D. Match the words in Column A (which are in bold and underlined in the text) with their meanings in Column B. (5x1=5 marks)

Column A	Column B
1. memorable	a) focus
2. flexible	b) unforgettable
3. concentrate	c) possibility
4. ensure	d) adaptable
5. potential	e) guarantee

PART IV: LANGUAGE USAGE

(20 MARKS)

A. Choose the correct option a, b or c so that the second sentence has a similar meaning to the first sentence. (5x2=10 marks)

1. Sarah started working in an office three years ago and she still works there.

Sarah ___ in an office for three years.

- a. worked b. had worked c. has been working

2. It is necessary for guards to wear identification badges.

Guards ___ wear identification badges.

- a. can b. must c. might

3. Tom achieved his goals although he faced many difficulties.

Tom achieved his goals ___ facing many difficulties.

- a. despite b. unless c. because

4. Volunteers planted five hundred trees in the national park last month.

Five hundred trees ___ in the national park last month.

- a. planted b. have planted c. were planted

5. She'd prefer not to use social media all day.

She'd rather ___ social media all day.

- a. not to use b. not use c. not using

B. Choose ONE of the words in brackets to complete the passage.

FIFA World Cup 2026 - Fair Play

The FIFA World Cup 2026 is currently taking place across three host nations: the United States, Canada and Mexico. For the first time in the tournament's history, forty-eight teams are competing **1. ___ (at / after / for)** the trophy, making this the largest World Cup ever held. With so many nations **2. ___ (including / involved / concerning)** and millions of fans watching around the world, the importance of fair play has never been greater.

Fair play is about more **3. ___ (just / that / than)** simply following the rules of the game. It means showing respect for opponents, referees and supporters. Players who display fair play understand that winning is not the only thing that matters. How you play the game is just as important **4. ___ (like / as / so)** the final score.

Despite the pressure that comes with competing at the highest level, many players at the World Cup 2026 have **5. ___ (shown / mentioned / explored)** outstanding sportsmanship both on and off the pitch. Helping an injured opponent or accepting a referee's decision gracefully, are all examples of the values that FIFA actively **6. ___ (transforms / competes / promotes)** throughout the tournament.

FIFA takes fair play very seriously and awards a Fair Play Trophy to the team that best **7. ___ (shares / admires / demonstrates)** respect and discipline throughout the competition. In some cases, fair play can even determine which teams advance to the next round. A striking example of this **8. ___ (appeared / occurred / developed)** at the World Cup 2018. Japan progressed to the knockout stage ahead of Senegal simply because they had received **9. ___ (less / fewer / many)** yellow cards. Both teams had finished level on every other statistic.

All in all, the World Cup 2026 is not only a celebration of football but also an **10. ___ (opportunity / excuse / effect)** for players from forty-eight nations to set a positive example for young people everywhere.

C. Complete the following passage by using the correct form of the word in brackets.
(10x0.5=5 marks)

The Kalidonia Nature Trail

Deep in the mountains of Cyprus, the Kalidonia Nature Trail is one of the most beautiful places for young people and adults who enjoy 1. ____ (**PEACE**) walks in nature. Located in the Troodos forest near the village of Platres, the trail attracts visitors from all over the island because of its cool air, tall pine trees, and its sense of 2. ____ (**RELAX**). Many hikers say that the walk helps them escape from the stress of modern life and feel more 3. ____ (**CONNECT**) to nature.

The trail is especially famous for the small river that flows beside the path. During the walk, visitors can hear the sound of running water and birds singing in the trees. In spring and autumn, the area becomes even more 4. ____ (**IMPRESS**) because of the pleasant temperatures and the fresh mountain air. Visitors can also enjoy the surroundings and the sound of water flowing nearby. The route also leads to the well-known Kalidonia waterfalls, where many people stop to rest, take photographs, or simply enjoy the 5. ____ (**NATURE**) beauty around them.

Although the walk is not 6. ____ (**EXTREME**) difficult, hikers still need to be careful because some parts of the path can be slippery, especially after rainfall. For this reason, comfortable shoes and 7. ____ (**SUIT**) clothing are strongly recommended. What's more, visitors should carry water and avoid leaving rubbish behind, since protecting the environment is everyone's 8. ____ (**RESPONSIBLE**).

Nature trails such as Kalidonia are becoming increasingly popular among teenagers who want healthier and more 9. ____ (**ADVENTURE**) activities. Instead of spending hours indoors using electronic devices, many young people are discovering the benefits of outdoor exercise. Walking in nature can improve both physical 10. ____ (**FIT**) and mental health and can also encourage people to appreciate the natural world more deeply.
