TASK 3

You will hear part of a radio programme about the invention of Post-it. For each question, fill in the missing information in the numbered space. Write one or two words or a number.

POST IT notes

An accidental invention

- ❖ Post-It notes are small pieces of yellow paper which might seem like a simple product, but it took 12 years to **(1)** _____.
- ❖ Spencer Silver, who worked for 3M, wanted to make glue that could be used to build **(2)** _____.
- ❖ Instead, he made weak glue which had two strange features. First, it would stick to any flat **(3)** _____. Secondly, it could be used again and again.

Making it useful

- ❖ Spencer was searching for years to find a practical use for this unusual glue. However, he failed. Then in **(4)** _____ something happened.
- ❖ While his colleague Art Fry was singing in a choir his music book wouldn't stay **(5)** _____.
- ❖ He immediately thought to use weak glue on a piece of paper to avoid damaging the book.
- ❖ At work he used the weak glue to make sticky paper. Everyone loved it!
- ❖ In 1980, 3M **(6)** _____ it and today, Post-It note paper is one of the world's **(7)** _____ office products.

What do we learn?

- ❖ The Post-It note story teaches us about **(8)** _____.
- ❖ Spencer and Art turned a unique product into something useful.
- ❖ Everyone says to be successful in **(9)** _____, but we often need to find a problem and then create a **(10)** _____. Sometimes we have the answer but we still need to have a problem.
