

PART II: READING COMPREHENSION (30 MARKS)

Read the text carefully and then do the exercises that follow.

Dogs are our friends!

Dogs are our friends. They help us and they stay in our house. A cat can one day leave the house and never come back again, but a dog is always there on good and bad days. A friend may one day forget you, but a dog is always there. Dogs are clever and they can help you carry things. They are good company for young and old people. Also they never tell us lies.

Doctors say that people with dogs can live for a long time because they help you relax and their friendship makes you strong.

Dogs may also help you find friends. Why? When people see you with a dog, they often speak to you.

We often see dogs in the streets because they don't have a home. We can give them a home and some food to eat.

A. Choose the best answer. (5x2=10 marks)

1. Dogs are our friends _____ .
 - (a) only on good days
 - (b) only on bad days
 - (c) every day.
