

European Day of Languages 2025
School Year 2025 - 2026
NIKOLAIDEIO GYMNASIO PAFOS

To celebrate the annual European Day of Languages on September 26, our school decided to combine the day's celebrations with our Welfare and Social Awareness programmme.

We planned and conducted lessons based on various interactive activities in order to raise awareness of the wide variety of languages in Europe, to promote cultural heritage and linguistic diversity as well as to emphasize the importance of language learning. Students were asked to create posters based on these concepts, which were displayed throughout the week. During break, we held a bazaar with snacks from different countries provided by teachers and students accompanied by music and songs from around the world.

The proceeds from the bazaar were given to the school's Student Welfare Committee marking the whole celebration as a learning experience in linguistic, cultural and social awareness
