

European Day of Languages

School Year 2025-2026

XYLOFAGOU GYMNASIUM

Celebrating Languages Through Food, Music and Games

On the 26th of September, our school celebrated the European Day of Languages. It was a wonderful day full of fun, creativity and learning, and a great opportunity for our students to explore the diversity of languages and cultures from around the world.

Our students worked hard to prepare all the activities and their effort truly showed. They organized a colorful food market with delicious dishes from different countries, giving everyone the chance to taste something new and exciting. They played fun language games and quizzes that brought smiles and laughter to everyone involved. They listened to music from different countries across Europe, filling our school with energy and joy. They also created informative boards in various languages, which were displayed in our school.

What made the day truly special was the positive response of all our students. Almost every student took part in the celebration with great enthusiasm and joy making the whole event a great success.

We are proud of our students for their enthusiasm, teamwork and participation in making this day special.
