

Literature Month
School Year 2025 - 2026
LYKEIO AGIAS FYLAXEOS
William Shakespeare and His Works

As part of the celebration of Literature Month, our school organised a presentation in the school library during the break.

Three students prepared and delivered an engaging presentation about William Shakespeare and his works, allowing students and teachers to travel to the magical world of the great British playwright. Through their presentation, the audience had the opportunity to learn more about Shakespeare's life, his era and his literary work. Special emphasis was given to the universal themes found in his plays, such as love, power, betrayal and human nature. After their presentation, the students interacted with the audience by answering questions related to their topic, creating an enjoyable and engaging discussion for everyone.

The activity aimed to highlight the important role of literature and theatre in the development of creativity, critical thinking, teamwork and cooperation among students. At the same time, it encouraged students to appreciate the value of English Literature and the lasting contribution of Shakespeare to world culture.
