

Poetry Competition
School Year 2025 - 2026
IDALION LYCEUM
2nd Annual Poetry Competition

As part of Foreign Literature Month, the English Department of our school organised a special Poetry Competition, giving third-year students the opportunity to express themselves creatively in the English language.

The competition took place during school hours in the school auditorium, in a warm and welcoming atmosphere. The students responded enthusiastically, composing original poems that highlighted their imagination, sensitivity, and linguistic development.

This activity was not only a creative challenge, but also a meaningful opportunity for students to become more engaged with literature, develop their love for poetry, and discover the power of language as a means of expression and communication.
