

## Biannual Peer-to-Peer Social Awareness Seminars 2025-2026

### PAGKYPRION GYMNASION

#### Youth Perspectives on AI, Equality and Europe

On 24 April 2026 our school participated in the 2nd Pancyprian District Seminars “Biannual Peer-to-Peer Social Awareness Seminars” (#givingourfutureavoice).

Our students had the opportunity to present and discuss, in English, issues that concern them, with particular emphasis this year on topics connected to the priorities of the Cyprus Presidency of the EU 2026.

Our school was represented by four groups from the English classes D11, E53, and E61. Our students distinguished themselves for the high quality of their work, as well as for their excellent use of spoken English.

The topics they presented were:

- ◆ The sides of AI we ignore
- ◆ Will robots steal my job?
- ◆ Women vs Patriarchy in the Workplace
- ◆ Youth opportunities and access to the EU

Participation in the Peer-to-Peer programme was a valuable experience, strengthening the students' presentation skills and giving them the opportunity to exchange views and share experiences with peers from other schools.

Programme Coordinators: Lampo P. Rayia, Maria Pieridou
