Housing Crisis in Cyprus**

Peer to Peer Social Awareness Seminars, 21/4/26

Our school participated in the 10th Biannual Peer to Peer Social Awareness Seminars in Nicosia. We participated with two students who presented the topic “Housing Crisis in Cyprus”, a topic which affects everyone in our country at the moment. Our students chose this topic as they see the prices of real estate going higher and higher each year, creating uncertainty for citizens, especially the young. The students enjoyed participating in the seminars, they learned a lot and said they would like to take part next year as well. (Teacher: Michelina Stavrinou)
